SCHOOL REPORT.

In presenting our annual report we believe we can justly say that the schools of the town for the past year have been fully up to the standard of previous years. We have had, in each of the six districts, thirty-two weeks of school carried on under favorable conditions and attended by a larger number of pupils than for some years. We have been especially fortunate in keeping the same teachers for the entire year, this having been done in all the schools with the exception of a single term at Mont View. We believe a frequent change of teachers to be detrimental to the best interests of any school and when suitable teachers have been secured we are heartily in favor of their retention as long as possible. During the year a new and up-to-date arithmetic has been substituted for the one heretofore in use and the text books are now fairly satisfactory, with the exception of the language books, where a change would be of much benefit. The expenditures for repairs to school buildings have been smaller than for some time, the largest item being a badly needed coat of paint at Quincy. The usual small repairs have been attended to and the fences considerably improved. The school room at the Depot needs a thorough remodeling, being in bad condition in almost every particular. Otherwise the property of the district is in very fair condition and ought not to require any expensive repairs for some time. It will be noticed that the cost of maintaining the schools has been greater during the last year than it has in the past. There are several reasons for this condition: the salaries of the teachers have been placed on a more equitable basis, it has been found necessary to pay more for the conveying of pupils and in the village an advance in the price of board was demanded.

Since teachers must be boarded and scholars carried, it is apparent that further advances may be expected. The giving of Roll of Honor badges has been continued as usual, twenty-two annual and one hundred and fifty term badges having been given. The attendance for the winter term, especially in the Mont View school, has been rather bad, due principally to illness among the pupils. There has also been considerable tardiness in some schools, much of which seems inexcusable and owing to carelessness on the part of the pupils and their parents. This year, for the first time, Rumney was among the towns benefited by the equalization act, receiving from the state about one hundred and forty dollars. There is, however, no assurance that this aid is to continue, and the appropriation cannot safely be reduced, in anticipation of its receipt another year. Rumney's representation at Plymouth High school has been considerably increased this year, and we hope that the standard maintained by our pupils in the past is being kept up.

In closing we would express our thanks for courtesies extended and for the help that has in most cases been given us in our efforts for good schools.
